CLOUDBURST.

PLEE FOR LIVES.

Families Driven Into Hills By River.

Terrific Storm Hits Section of Kentucky and Floods Two Counties.

Deluge Comes Before Daylight and Homes Are Swept Away.

Crops Ruined—Second Cloudburst in State Within Two Weeks.

[BY DIRECT WIRE TO THE TIMES.]

WHITESBURG (Ky.) June 27.—[Exclusive Dispatch.] The result of one of the worst rain storms which has ever visited South-

eastern Kentucky, dozens of families

along the middle fork of Beaver Creek

on the Knott-Floyd counties border,

have been rendered homeless, and are

seeking for their lives to the mountains.

Although the details are meager, it is

feared that several have lost their lives

in the storm.

The storm broke early this morning,

before daylight, and in a short time

Beaver Creek overflowed its banks and

flooded the valley. Many homes, which

were only a few feet above the water,

were swept away. The water was

President's son, Robert Taft, here,

this morning, Michael Tolstow,

an Italian street laborer, is lying in a hospital here

with injuries which may prove

fatal.

The hospital surgeons say the

skull appears to be fractured. Dr.

S. J. Mizer of Boston, sent here

by the President, arrived late

this afternoon and is working

with the hospital authorities go-

ing all that can possibly be done

for the injured man. Robert Taft

is badly shaken up over the ac-

cident, which was purely an acci-

dent, and has spent much of his

time at the hospital.

The injured man, Tolstow, was

employed by the President's

family. He was driving the au-

POSSES OF THREE SHERIFFS ON TRAIL OF SHORT LINE BANDITS

[ASSOCIATED PRESS NIGHT REPORT.]

OGDEN (Utah), June 27.—The three bandits who held up and robbed the Oregon Short Line passenger train within the city limits of Ogden early this morning, are still at large, with posse headed by the Sheriff of three counties and the special officers of all the Hartman line following what is believed to be their trail.

All the information that the officers possess at present is that the bandits are headed toward Nevada, along the line of the Southern Pacific, west of Ogden. All roads, trails and the railroad are guarded by possemen.

Railroad telegraphers at the stations along the line of the Southern Pacific and the Oregon Short Line have been instructed to keep a close watch for the robbers and advise division officials at this point if they are seen.

The officials of the American Express Company announced today that the robbers secured less than \$500. The express officials are of the opinion that the robbers had intended to hold up the first section, which carried many valuable packages.

The robbers drove to the scene of the hold-up in a rubber-tired vehicle with which they made their escape to the west. A farmer in a field near Slatteryville, fifteen miles west of Ogden, saw the three men driving furiously toward the cut-off of the Southern Pacific Company across Great Salt Lake, at 4 o'clock this morning. The officers are following this clue at present.

CONTEST AN INHERITANCE

Helister Woman Sues Watsonville Citizen Again Over Mother's Legacy Left in Trust.

SANTA CRUZ, June 27.—[Exclusive Dispatch.] This city is noted for many sensational cases and another went on today when Mrs. Annie O'Connell commenced proceedings before Judge Dowling of Watsonville, against John Welch, of Watsonville, involving the disposition of \$25,000 found in an old trunk after the death of her mother, Mrs. Welch, a few years ago. This money, which had been stored away in the trunk for safe keeping, Welch decided was his, according to her allegations, and he invested some of it in real estate. Mrs. O'Connell and the other children, with the exception of her nephew, Charles Ford, of Watsonville, claim this as a part of the estate of Mrs. Welch and they are fighting to have it divided among them. A strong array of legal talent is in court and the case is being bitterly fought. About six months ago the same case was tried before Judge Smith and lasted for several days. The jury sitting at that time, wrangled over the evidence, being divided on a verdict, six to six.

OLYMPIA GIRL WEDS SAIL

After Many Sea Trips She Joins Captain on Voyage of a Life.

TACOMA (Wash.), June 27.—[Exclusive Dispatch.] A life on the sea is the preference of Mrs. J. Jensen, bride of the captain of the schooner Nokomia, leading lumber here. Until last week Mrs. Jensen was Miss Edith V. Perry, of Olympia. She had made many voyages and only recently returned from Australia, where she went with friends. It was while voyaging aboard Capt. Jensen's ship that they became acquainted. To be able to sail, enjoying the smell of the salt on long sea voyages, visiting the varied ports that the sailing vessel makes, and at the same time be with the finest captain she had ever met, was too good an opportunity to lose. So Capt. Jensen went down to Olympia and at her parents' home the pair signed for the long voyage. This morning they went aboard the Nokomia which is loading lumber across the bay. Mrs.

Confessed Embezzler at Oakland Tells What He Did With Oakland Tolls and Shortage.

[ASSOCIATED PRESS NIGHT REPORT.] OAKLAND, June 27.—Leiland H. Barnard, cashier for the Sperry Flour Company, who was arrested yesterday on a charge of embezzling funds from that firm, is still in custody of the police. Barnard this morning admitted that his pecuniary needs would amount to more than \$25,000 but he has become reticent in explaining what he did with the money, except that he had purchased real estate in Oakland, Berkeley and San Francisco there being included in these purchases a barber shop and a restaurant.

The prisoner was visited by counsel this morning, and the police stated that for the present no charge would be made against him. It is believed that an effort will be made by Barnard's family to straighten up his account.

Loyal Barnard, a brother, told Chief Peterson at police headquarters, that he would pledge the support of his family to make good the amount stolen by the young cashier. Experts are at work upon the books to discover the full extent of the shortage.

"The firm for which I worked," said Barnard this morning to the police, "never suspected me of anything wrong until last week. They always trusted me, but I began realizing that all was discovered. I intended to kill myself but was dissuaded by my wife." On a statement Peterson stated that the police would take no action in the case until formally requested to do so by the firm which Barnard is alleged to have stolen.

ALASKA'S IDEAL CITY.

Largest Interior Settlement Will Be Copper River Station With Fine Water Supply.

TACOMA (Wash.), June 27.—[Exclusive Dispatch.] Alaska's biggest interior city, so far as the matter can be planned ahead, will be Chitina, on the Copper River Railroad, now building by the McGowan-Guggenheim syndicate. Its location is about 120 miles inland from Cordova. The town is situated at the junction where the railroad runs northeast to the Bonanza mines and where the trail turns northward towards Fairbanks.

Front street is located along a thirty-five-acre lake and residence as well as business lots have an uninterrupted view of this stream filled with trout and greyling. From the lake the town runs back into a long, level valley, at the farther end of which there are two more lakes.

An ideal water system has been located, consisting of twenty-one acres of water, of an average depth of thirty-five feet, set at an elevation of 1200 feet above the townsite.

The railroad will reach Chitina by August 1. An agent of the Guggenheims has just finished visiting, stating that the town will be a fine place to live in, and the streets are being cleared.

STATE TAXES BEHIND.

MINUTE TO BRING SUIT.

[BY DIRECT WIRE TO THE TIMES.] SACRAMENTO, June 27.—[Exclusive Dispatch.] State Controller Nygard instructed today to Atty.-Gen. Webb to bring suit at once against the Rawhide and App. Gold Mining companies in Tuolumne county to recover \$12,500 in taxes delinquent for 1909. The suits are among the properties controlled by Capt. J. H. Nygard, one of the most prominent mining men in the state.

The usual procedure is to have the County Tax Collector sell the property to the state for delinquent taxes, but Controller Nygard believes that by suing he will save considerable trouble and expense.

DOCTOR'S ARCTIC ORDEAL.

Enumerated, Who Counted Inhabitants in Frozen North, Escapes Death by Hysteria.

[BY DIRECT WIRE TO THE TIMES.] TACOMA (Wash.), June 27.—[Exclusive Dispatch.]—Dr. C. D. Scott, the census enumerator for the Kuskokwim district, arrived from Nome last night. His count goes to Washington to be supplemented by the census of the Arctic and Bering Sea islands, now being taken by the cutter Bear, starting early in January. Dr. Scott stated:

DON'T STIMULATE EXHAUSTED NERVE

If You Would Be Cured Feed Nerves by Using a Tonic That Will Nourish Them Through the Blood.

Every person is endowed with a certain amount of nervous energy which is constantly drawn upon by the worry and responsibilities of our life. It is also largely drawn upon by the after-effects of wasting diseases. Unless these drains upon the nerves are replaced by nourishment from blood, the nerves become overworked and exhausted and some form of nervous trouble results.

The value of the tonic treatment of Dr. Williams' Pink Pills for Pale People is that these pills do not stimulate the already exhausted nerves to keep up the work for a time longer out that they are the blood pure and red and in that fully replace the nervous energy that has been used up.

Mrs. Frances Clark, a dressmaker, No. 1744-A Mission street, San Francisco, Cal., says:

"I suffered for about three years from nervous debility. I was very nervous and during most of the three years could not sleep well. My stomach was quite bad and I was pale and somewhat run down. I was not able to do anything."

"A friend urged me to take Dr. Williams' Pink Pills and upon doing so I felt better from the start. I took the pills for several weeks and gained ten pounds in weight and am able to work as hard as I have recommended Dr. Williams' Pink Pills to many of my friends and always with good results."

"If you are suffering from any nervous trouble, as neuralgia, sciatica, nervous headache, nervous prostration, nervous dyspepsia, St. Vitus' dance, partial paralysis or locomotor ataxia, send today for our new booklet, 'Diseases of the Nervous System,' which is free upon request. This booklet explains how the health of the nerves depends on pure red blood and shows what Dr. Williams' Pink Pills have accomplished in nervous diseases through their blood-building property."

Dr. Williams' Pink Pills are sold by a druggist, or will be sent, postpaid, on receipt of price, 80 cents per box; six boxes for \$2.50, by the Dr. Williams' Medicine Company, Schenectady, N. Y.

FLAT-FOOTED REPUBLICAN.

Seminole Chief Approaches What Administration Has Done for Indians. Will Work for Party.

[BY DIRECT WIRE TO THE TIMES.] NEW YORK, June 27.—[Exclusive Dispatch.] Gov. John Brown of the Seminole Indians, the head man of that tribe in Oklahoma for many years, has come out flat-footed for the Republican State and National platform and will work in the party ranks as a private citizen. He says: "I feel that the present Republican national administration is making a faithful effort to help the Indians and we must look to the Republican party as the only course of relief that the Indians have to expect."

He has tendered his services to the Seminole county and State committees for the campaign.

JOHNSON IS EFFERVESCENT, WHILE JEFFRIES IS STOLID.

[BY DIRECT WIRE TO THE TIMES.]
BY JACK LONDON.
RENO (Nev.) June 27.—[Exclusive Dispatch.] A lot of moot points will be threshed out in the Reno arena a week from now—or may be threshed out if the fight is not a quick one. Three things only can make it a quick fight. First, a lucky punch; secondly, the blowing up of one or the other of the fighters; and thirdly, a display of the hypothetical yellow streak on the part of Johnson.
One is justified in forecasting that there will be little liability of a lucky punch being landed in the opening rounds. Both men, in their fighting history, have managed to avoid receiving lucky punches, while neither has made a record for delivering lucky punches. Also, as the fight progresses and the men lose their velvet vigor, there is less and less chance of a lucky punch.
Again, viewed in the light of their fighting history, neither man has ever blown up. That has always displayed a condition that enabled them to last. It is argued that the high altitude will have a strong tendency to make them blow up. It certainly would if it were fourteen thousand feet, or even seven or eight thousand, but four thousand feet is not high enough to make them blow up. It is taken into consideration that both contestants will have had quite a number of days to accustom themselves to the lighter air. It must also be remembered that some pretty long fights have occurred in Nevada between sea-level dwellers, as instance the forty-two rounds between Nelson and Gans under the blistering Goldfield sun.
Now concerning that yellow streak. Bob Armstrong has put himself on record as being certain that his brother in color will very speedily faint that person when he faces Jeff in the ring. Perhaps this is a case of projected psychology on Bob's part. At any rate, he has no fact in Johnson's career on which to base such a notion. The one thing to bear in mind is that this yellow streak is purely hypothetical. It may be that Johnson may lack in physical stamina and succumb to punishment. But this would be a very different thing from being yellow. From lying down in abject cowardice without receiving any punishment to speak of. A cat can have both barrels of a shotgun aimed in it and still remain white as a sheet. A sharp rap with a lead pencil can kill a rabbit, yet the rabbit cannot be called yellow because it so easily succumbs; and so with Johnson. It remains to be seen whether he is yellow and whether he possesses an extraordinary power for assimilating punishment as he has for drinking it.
And so, by all the tokens one is led to believe that the Reno fight will not be settled in short order. The chance is large that it will be a long fight, with ten or twelve rounds as the very minimum. The chance is even good that it may go twenty rounds, and there are many expert fight writers who would not be surprised to see it run to thirty rounds and even beyond.

FINAL STAND.

(Continued from Sixth Page.)
Finagan today that a representative of a Canadian syndicate had arrived in Reno and was prepared to make an offer of \$150,000 for the Canadian rights to the fight pictures. Jack Gleason is expected to return to Reno Wednesday, and further developments in negotiations for his share of the picture profits are anticipated.

IT WORRIES HIM.
Rickard was greatly worried tonight by the receipt here of a telegram from a Chicago newspaper man stating it was rumored there the fight would positively be called off. "Get busy," concluded the message, and Rickard inferred that the rumor had been taken seriously and would be published broadcast.
There is absolutely no truth in this rumor of State interference," Rickard stated to the Associated Press. "I have the personal assurance of Gov. Dickinson that he will not interfere. I can't imagine how such a report could have reached Chicago. I know it is not true, but I am afraid that the constant repetition of such rumors will prevent many visitors from coming out."

Brannigan After Match.
Jack Kelly, formerly a noted steeplechase jockey, is trying to secure a match with Frankie Conley for Patsy Brannigan, the fast little bantam-weight of Pittsburgh. Brannigan undoubtedly has the class, and at least seems to have as good a right as any others to challenge for the title. Secretary Hancock of the Pacific Athletic Club thinks favorably of the match and may arrange a date for July.

Lewis Beats Joseph.
LONDON, June 27.—Harry Lewis, the American fighter, defeated Young Joseph of England in the eighth round of a twenty-round contest here tonight. The fight was for the welter-weight championship of England and a purse of \$2000 a side. Lewis led all the way. Joseph's seconds tossed up the sponge after he had taken the count three times.

Smith Beats Sullivan.
ALBANY (N.Y.) June 27.—Frankie Smith of California had a shade the better of Kid Sullivan of Washington in a fast ten-round bout here tonight.

BREEDERS' ASSOCIATION HAS TO CHANGE POLICY.
Track at Agricultural Park Not to Be Finished in Time for Fall Races and They Will Be Held in Connection With Meeting at State Fair at Sacramento.

THE CALIF. BREEDERS' ASSOCIATION is to race off its stakes at the meeting to be held at the State Fair at Sacramento, September 3-10. The track at Agricultural Park will not be finished in time for racing next fall, and this reason it was necessary to change the races elsewhere.

L. J. James, secretary of the Breeders' Association, says that while the stakes will be held under the management of the State Fair races, the regular conditions of the events will not be changed in any way.

The stakes to be decided follow: California Breeders' Association Stake for 3-year-olds, with \$400 added; 60 per cent. for trotters and 40 per cent. for pacers.

Cent Stakes for 2-year-olds, with \$400 added; 60 per cent. for trotters and 40 per cent. for pacers.

Canfield-Clark Stake No. 1, for 2-year-old trotters, \$1000.

Beresford Kirchhoffer takes the lead in the second day's battle in the scholarship campaign. He stole the forfeitures of his cousin, Rick Pratt, of Ontario, "Erick the" and in the twinkling of an eye, had changed hands and Beresford was in command. The next move in this cousinly battle waited with deep interest. When Van Culin, "Trabue the Crusader," came in with a number of points, unfortunately, some points counted him on Saturday had to be charged to, so his score failed to gain by his work. However, Trabue is of the opinion who does not become discouraged a little waiting, and we are likely to hear from him again today. Mary Pearl Pottol and Howard Collins are a tie in count of Mary Pearl Pottol and Howard Collins. Now for a race between the two football towns, "Mary Monrovia" and "Howard of the Hills," each starts with 500 points. "I have two new ones," "I'm proud of an annual," "Have you seen the score stands?" "Will there be any changes in the lists tomorrow?" These were some of the eager questions asked at scholarship headquarters yesterday, as the young army of scholarship contestants came and went. They have backed down to work in earnest, and there is much good rivalry as to score, and plans of advancement are made from hour to hour, as new emergencies arise and young people are keen in meeting them. If any one doubts that to work in

can we help the scholarship contestants? Some wished to turn in subscriptions and wait a time which suited them to say where the points should be credited. Others had chosen their favorites from the printed list and wished to know if they could turn their subscriptions directly into The Times office, and have them credited to their favorites there. To such the reply is "yes," you certainly can. Many people came to the office of The Times in person, and left subscriptions to be credited to certain ones as a surprise. All such surprises will be delivered carefully to those for whom they are intended and it is too bad that the kindly donors cannot see the pleasure that they give.

Coupons may also be turned in at The Times office, but in order to be counted on the same day and to appear in the morning paper to the credit of the contestant, they must be in The Times office by 4 o'clock in the afternoon.

All subscriptions must be turned in by contestants by 5 o'clock each day in order to appear in the list the following morning.

We are very anxious to have the photographs of all out-of-town contestants, and also any interesting information regarding them, as there is no telling what day we may wish to give something special about them, when they take a jump to the top of the list, or distinguish themselves in some way.

Any who have not good pictures and can find time to run in to The Times office, may have them taken by The Times photographer.

It is time for a surprise from out of town, and it may come when tomorrow's score is turned in.

Demure Florence Lambert, who was not in the score at all, on Sunday morning, has it will be observed, taken the lead among the girls. One of Florence's grandfathers distinguished himself in the Crimean war, so she has a right to make rapid headway when she takes a start. Girls, you'd better watch fair Florence!

By Wednesday morning, we shall, doubtless, hear from more of the soldiers, both in town and out.

Let it not be forgotten, by those who are interested in young people and their welfare, that this is a contest for something of genuine value to them, and any assistance which can be given will be expended in a lasting benefit.

The cash prizes are worth working for, and the scholarships and such as will help the boys and girls to make for themselves useful futures.

Los Angeles School of Art and Design—Malcolm Macleod, Dean—Scholarship for year 1910-11. Value \$15.

Walter Shirley Melrose, Tropic candidate, aged 14 years, who is a native son.

This competition is a business education, he would cease to do so, after hearing with what intelligence possible complications are avoided, and how sensibly the boys and girls plan their campaigns.

One boy, Chester Stevenson, who had never before had anything to do with such work, went out and secured a new annual subscription, the first thing, which is most encouraging.

Two new contestants joined the army yesterday, Frank Bowler of Calexico, and Frank Crowell of No. 141 Locust street, Riverside. Hurra for the two Franks! They bring the list of seekers after laurels up to seventy-five.

An interested caller at scholarship headquarters was Miss Hazel Franklin, of No. 1811 Cherry street, who two years ago won a scholarship in the Eva Keller School of Music. Miss Franklin now attends business college and although too busy to enter the list, she expects to see her sister installed among the would-be winners next year.

Letters and postal cards were received and the phones were ringing all day at scholarship headquarters, the burden of all questions being, "How sign—Malcolm Macleod, Dean—Schol-

DAMAGE TO REPUTATION.

O. W. Butler, a contractor of this city, has a complaint against the Phillips Ventilating and Manufacturing Company, for \$12,000 for alleged libel. It appears that some time ago, L. Earnest Phillips, head of the defendant company, brought an action to enforce a mechanics' lien on a house being erected on lot No. 31, in the Forest Park subdivision, and wrongfully coupled the name of Butler as one of the defendants, when as a matter of fact, the plaintiff was only an agent of the owner. Butler alleges that the fact injured his credit very materially.

Earnest Phillips, head of the defendant company, brought an action to enforce a mechanics' lien on a house being erected on lot No. 31, in the Forest Park subdivision, and wrongfully coupled the name of Butler as one of the defendants, when as a matter of fact, the plaintiff was only an agent of the owner. Butler alleges that the fact injured his credit very materially.

2 hundred and 77 dollars and a half is the outside price to members of this great piano club, remember

¶ That there can be no misunderstanding let us again tell, that 2 hundred and 77 dollars and 50 cents includes everything the Fitzgerald piano club member has to pay. In other words, it is the *outside price* or the *extreme price*.

¶ The club member who pays 2 hundred and 77 dollars and a half, pays at the rate of 1 dollar and 25 cents a week, taking, therefore, the *full limit of time* in which to pay for his piano, 218 weeks. If he wishes, however, he may pay for it in *less time*.

¶ If he pays for it in *less time* he is entitled to a *less price*.

¶ For every week he *lessens* or *shortens* the time he gets a rebate of *15 cents in cash*.

¶ Thus if he shortens the time he takes to pay for his piano *one week*, he lessens the price 15 cents. If he shortens it *two weeks*, he lessens the price 30 cents. If he shortens it *three weeks*, he lessens the price 45 cents, and so on.

¶ Or, take another illustration:

¶ Suppose a club member was to pay 2 dollars and 50 cents a week instead of 1 dollar and 25 cents a week, he would pay for his piano in exactly *one-half* the time of the member who only paid 1 dollar and 25 cents a week, wouldn't he?

¶ *One-half the time* is 109 weeks. He would therefore receive a *rebate in cash* of 109 times 15 cents, *which amounts to 16 dollars and 35 cents*.

¶ Taking 16 dollars and 35 cents from 2 hundred and 77 dollars and 50 cents, you have 2 hundred and 61 dollars and 15 cents left—the *price the club member pays for his piano who pays 2 dollars and 50 cents a week instead of 1 dollar and 25 cents a week*.

¶ Do you see the idea? You are not compelled to pay only 1 dollar and 25 cents a week. You may pay faster if you wish, and the *faster you pay the less the price*.

¶ A club member can still further reduce the price by securing other club members.

¶ For the benefit of people unable to visit our store before the membership books close, we have compiled a booklet, giving full details of the Club Plan, and showing the three different styles and woods of the Club Pianos. We will be glad to mail this booklet, free of charge, to all those who will fill in and return to us the coupon in the lower right hand corner of this sheet. Fill in the coupon RIGHT NOW and we'll enclose book of Old Favorite Songs.

Other features of Fitzgerald piano club in detail

1. The club is to be composed of 500 members.
2. A great many of the memberships have been taken.
3. The value of the Fitzgerald Club piano is \$275.
4. The price to Fitzgerald Club members is \$277.50.
5. The terms are \$5.00 cash when you join, then \$1.25 per week. There is no interest added to this.
6. The piano will be delivered when you join, or later, as you wish.
7. The weekly payments of \$1.25 begin when the piano is delivered.
8. Every instrument is guaranteed without reserve for ten years. There are no "ifs" or "ands" in the guarantee—just a straight-out guarantee as strong as we know how to make it in writing.
9. If, after 30 days' trial, the piano is not satisfactory, we will give you your money back.
10. If the piano is satisfactory after 30 days' use, the club member has 22 more months in which to satisfy himself as to the character of the piano. If it does not then prove to be everything that he expects, he has the privilege of exchanging it without one penny's loss for any other instrument of equal or greater value that we sell (and we sell over a dozen different representative makes).
11. If a club member dies during the life of his contract we will immediately send a receipt in full to his family for the instrument.
12. A beautiful stool to match the piano is included without extra cost.
13. The piano will be tuned twice without charge.

Workers May Be Idle, No Trespassing.

Workmen Are Protected by the Court.

Industrial district in automobiles, and put up at the best hotels.

The same agitators pose before the poor strikers as patriotic leaders trying to benefit the fellows who are without work. The better class of the strikers are now anxious to go back to their shops. During the past few days, a daily average of twenty-five men have returned to work. At this rate the foundries and machine shops will soon have enough men for the summer, without sending outside for help.

The Merchants' and Manufacturers' Association has been working in conjunction with the Foundry and Employers' Association, and decisive results have been obtained. The first-named organization has left its moral and financial support to the cause, and the iron men have been in constant consultation with Secretary Zeehandelaar.

The situation has cleared. It is now simply a question of waiting until the best of the strikers are willing to return to work as individuals. The unions will not be recognized. The agitators will not be allowed any conference, for there is absolutely nothing that is open to conference.

STRIKERS BEG DRINKS. There is now little if any picketing in connection with the brewery strike. A few jobless fellows walk up and down South Main street begging passers-by to give them a drink, but the strikers have wearied of boosting the trade of the saloon-men.

One saloon owner says his business is better during the so-called boycott than it has been for months. He ascribes this to the fact that few persons like to have anyone dictate where they shall purchase a glass of beer.

The breweries have plenty of help. The output is about the same as before the strike. The outside concerns, who hoped to profit by the laborite crusade against "unfair beer," are greatly disappointed. It has been proved that the unionites go to the saloons where they can get the most beer for a nickel. They may howl about "unfair beer" until their lips crack, but when they are thirsty they do not spend 25 cents for eastern beer. The houses do not condescend to drink any beer. Their favorite beverages are champagne and sparkling Burgundy.

The brewery strikers were paid high wages as compared with the average eastern city. In San Francisco where the unions have a throttle-grip on every merchant, manufacturer and brewer, of course wages are high. They are so high that the employers are making no money. That does not worry the laborites as long as they can extort their abnormal wages for inferior work.

SMOKE FIGHT.

NEW DISTRICT BRINGS PROTEST.

FACTORIES MAY MAR CITY'S FINEST PARK.

Citizens Will Appeal to Council to Protect Agricultural Park Against the Industrial Section Recommended by the Board of Public Works in Southwest.

Shall the establishment of an industrial district adjoining Agricultural Park be tolerated? This is the problem which the City Council will have to solve in the immediate future. The directors of the Sixth Agricultural District object very strongly to having a string of smoking factories and noisy lumber yards opened in the immediate vicinity of the site of the magnificent public buildings that are to ornament Agricultural Park; the Board of Public Works has recommended to the Council that the district bounded by Vermont, Santa Monica, Santa Barbara and Third avenue be declared an industrial district. The matter will be fought out before the Council today.

There are nearly \$500,000 available for the erection of buildings on the old Agricultural Park site. Of this amount \$250,000 will come from the State and \$250,000 will be contributed by the city. In preparation for the erection of these buildings, Vermont avenue is being paved and Thirty-ninth street widened to 120 feet. It is the plan to make Vermont avenue the main entrance to the park grounds. Should the recommendation of the Board of Public Works be carried out, this thorough-

have cause for complaint.

The brewery strikers say that their present employers are faithful and reliable. There have been fewer "leaves of absence," and the men seem contented. The drivers are well protected against ruffians, and a large force of deputies is on duty at the various plants. Apart from a few violent and probably drunken attacks in the past, there has been no concerted attempt at violence. A squad of policemen is on duty at the Central Station day and night, but so far there have been no riots. Chief of Police Galloway is, however, prepared for any emergency. His instructions to his men are to arrest every disturber.

have in the past been admitted into the district that is no reason for throwing that part of the city wide open, as far as manufacturing concerns are concerned. These citizens will be represented at the meeting of the Council today and make a strong protest against having the scheme of the Board of Public Works carried out.

It is pointed out that it would be a poor advertisement for Los Angeles to have factory buildings lining the street which leads to what must be one of the great show places of the city, and it is urged also that visitors to the museum would be greatly inconvenienced by having clouds of smoke blowing into the windows every time a gust of wind came from the direction of the factory district.

Property holders in the affected district characterize the recommendation of the Board of Public Works as nothing that of an outrage, and the directors of the Sixth Agricultural District are inclined to back them up in the stand which they have taken.

It is believed that no definite action will be taken today and that the Council will pass the matter up to a committee with power to act. The opponents of the industrial district plan are not taking chances, however, and they will fight vigorously any encroachment of the factory interests.

BIG SHIPS TO STOP HERE.

Seven Freighters of the American-Hawaiian Line Scheduled for This Port.

Beginning August 1, the large freight steamers of the American-Hawaiian Steamship Company will make a stop at either San Diego or Los Angeles every six days. Which port is visited will each time depend upon the destination of freight billed to Southern California points, but in most instances this port will be the one chosen.

Seven ships of the American-Hawaiian fleet will include the Southern California ports in their itinerary. These are the Hawaiian, American, Kentuckian, Oregonian, American, Texan and Massachusetts. They ply over what is known as the triangular route, sailing every six days from San Francisco, which is the port at the western end of the Tehuantepec Railway, for the Hawaiian Islands via San Francisco and Puget Sound. They connect at Balina Cruz, via the Tehuantepec route, with the Atlantic ships of the same company which run down from New York and Delaware breakwater.

The ships will bring freight here from Atlantic Coast ports and will also take on board cargo for the Hawaiian Islands.

The residents of the district, who have been looking for a change in the past, are now looking for a change in the future.

Georgie Parris,

who won the first prize at the Southern Pacific baby show in Redondo Beach, on Saturday, for boys under 3 years old. Georgie is 2 years and 11 months old, and is the son of Mr. and Mrs. A. J. Parris, No. 732 Clover street, this city.

point out that the proposed southwest museum and the other buildings which it is planned to erect would be rendered far from attractive were there a collection of factories in the neighborhood. For that reason they oppose the establishment of the industrial district. The members of the Board of Public Works take the stand that many factories have already been erected in the district and are now in operation and that the locality is a logical one for industrial concerns. It is on this basis that they have made their report and they will, it is understood, endeavor to make the Councilmen see things their way.

The residents of the district, who have been looking for a change in the past, are now looking for a change in the future.

Silver Medal Class of Los Angeles Conservatory Render Good Programme.

Last night the Los Angeles Conservatory of Music entertained its friends in Symphony Hall in the Blanchard building. The occasion was the annual concert given by the member of the silver medal class of the school. The silver medal is a badge of rank, just as the title of sophomore or junior is given in other schools. The programme was as follows:

Quartet, Kathleen Brown, Anna Zacek, Eva Lilley and Lillian Wartick, who rendered the march "Triumphale." Two numbers by Dorothy Burton, "Sadness of Soul," and "La Styrienne." "Saltarello," Lillian Wartick, "Ronde," by Beethoven, duet, "Gallop de Concert," Eva Lilley, Mrs. Carter, "Valse Caprice," Anna Zacek, "Last Hope," Ethel M. Platt, "Valse Brillante," Beatrice E. Hay, and the evening's performance was completed by a duet by Ethel M. Platt and Mrs. Kate M. Brown.

There are eight members of the class that are being promoted to another grade. Each member of the class has already given a private recital, and the presentation of diplomas will be made this evening at 8 o'clock in Blanchard Hall.

HIS BOOTLESS FIND.

Coreless Passenger Leaves in Street Car Human Foot, Which Causes a Sensation.

Found—On Garvey street car No. 513, a human foot. Owner, if wishing to recover, must hurry, as the find is on its way to the garbage dump.

Motorman H. Kuykendall was changing ends on his car at the end of the line yesterday morning when he noticed a parcel left on one of the seats by some passenger. It might have been something of value, and Kuykendall hefted it carefully. The bundle was rather heavy; he opened it for a peep.

It was only wrapped up in newspaper, anyway. Then Kuykendall sat down hard and leaned far out of the car for a breath of fresh air. After a hasty conference with his conductor, the parcel was again wrapped up, swiftly and silently.

When the parcel reached the car barn it created a sensation among the officials. This was not a joke.

throwing him to the floor below. At the Receiving Hospital he was found to have sustained a laceration of the skull five inches in length, the blow at the time having pulled back the scalp on one side until the skull was exposed for a width of three inches. He, however, had suffered no other ill effects from his fall, and he was able to go to his home, No. 132 South Figueroa.

UNITED BOYS BRIGADE.

Will Go Into Camp at Avalon Today for Annual Summer Outing. Eleven Companies.

The United Boys' Brigade of America will pitch camp today at Catalina, where they will enjoy an eight days' outing. The camp will be the largest ever held by the brigade, the eleven companies participating numbering exactly 300 officers and boys, from this city, Alhambra, Pomona, Pasadena, Redondo and Long Beach. The Los Angeles organizations will leave the Pacific Electric Station at 9:15 this morning and will sail from San Pedro at 10 o'clock.

An advance detail has preceded the main body by several days, and when the latter arrives today it will find camp already ready for occupancy. The camp will be under strict military discipline, with daily battalion and regimental drills, and each boy will be required to do a certain amount of sentry duty, but there will be ample time for swimming, boating and athletics all the while.

The trip only costs each boy \$4.50 for the eight days, everything being furnished except ice cream and candy, the railroad and steamer fares included. The officers in charge of the camp, are as follows: Camp commander, Capt. Charles C. Duffett, Los Angeles; adjutant, H. J. Quinn, Los Angeles; quartermaster, Dr. J. Taylor, Inglewood; treasurer, Dr. Horace Brown, Los Angeles; quartermaster, Leslie G. Bryant, Los Angeles; commissary, W. M. Brewster, Los Angeles; commissary, E. Alva Lawrence, Pomona; athletic director, C. H. Lovell, Pomona; scoutmaster, Dr. Paul E. Simons, Los Angeles; Dr. N. J. Rice, Pomona; Dr. Ulfelt, Los Angeles.

Visitors will be welcomed at the camp at any time, and State headquarters will be maintained in a tent by President Bryant, where literature and full information concerning the organization will be furnished to all inquirers.

NO FUNDS FOR CHECKS; JAIL.
San Francisco, June 27.—(Exclusive Dispatch.) Herbert M. Davidson, who conducted a draying business, was arrested today and charged on two counts with passing checks on a bank in which it is alleged he had insufficient funds. Bonds covering both charges were fixed at \$11,000. Davidson has recently secured between \$3000 and \$1,000 from friends on worthless checks.

N. Kallischer, alleged Davidson secured \$654.50 from him on June 13 on a check drawn by Davidson on the City and County Bank. L. Lagor, marginally alleged a similar transaction on June 10, in which he lost \$488.25. Many other complainants, all prominent business men, hold worthless checks which they assert were given them by Davidson.

Davidson, in default of bail, was locked up at the city prison. He appeared to be on the point of a nervous collapse, and insisted that there was no criminal intent on his part to defraud his friends. "It was simply the exchange of checks in the day transaction of business," said he. "I fully expected to have enough deposits in the bank to cover the amounts on the checks, but business was so bad that I could not raise the money."

"I have been in business for four years, and my name has stood high in the business community. I failed last Monday and now I am broke."

MORE LIGHT NEEDED.

INJUNCTION ASKED AGAINST SET RATES

Telephone Company Appeals to United States Court for Restraining Order—Electric Companies File Referendum.

TWO new attacks on the public utility rates resulting from the Linsner board and the Council, came yesterday almost simultaneously. One was the filing of the referendum petition on the light rates by the three electric companies and another was the appeal of the Pacific Telephone and Telegraph Company for an injunction against the rates fixed in the telephone ordinance.

While Attorney Paul Overton of counsel for the Los Angeles Gas and Electric Corporation was filing the big referendum with the City Clerk, Attorneys Mott & Dillon of this city and E. S. Pillsbury of San Francisco were before Judge Wellborn in the United States District Court, asking a hearing for a temporary injunction. The referendum was filed about 4:30 o'clock, and Judge Wellborn issued an order at 4:45 for the Council and Mayor to show cause next Friday morning at 10 o'clock, why a temporary restraining order should not be issued.

The referendum petition goes to the legality of the vote Thursday on the light rate measure, while the injunction suit raises all questions of fact as to the arbitrary telephone rates fixed by the Council. Together they are likely to make law for the city as to rate making and referendums.

The lighting companies had until yesterday evening to file their petition, or forfeit the right, as the thirty days expired yesterday. The rate ordinance was approved May 28, by the Mayor and the referendum thirty-day period dates from his approval. By filing yesterday the companies kept their word, for they said when the petition was begun that it would be filed yesterday.

The referendum is composed of 660 sheets, numbered consecutively, and containing about 16,000 signatures. Overton said the number was perhaps 200 or 300 less. It is bound in loose leaf covers and every signature is protected by a wax seal. The petition is presented to the Clerk, and verification is made easy by the advance work done.

It is coming was a complete surprise to all the Good Government officials. When the Mayor sent his open letter to the companies June 6 demanding that the petition be filed at once and did not get a favorable answer, he and others declared the companies had no petition or, if they did, were not going to file it, but hold it as a bluff. The climax yesterday did not look like a "bluff," as it has been termed.

"MORE SUPERFLUITY." While the companies did nothing more than file their big petition, the bulk of which was accumulated in forty-eight hours after it was started, it is understood that the action is intended to ignore the Mayor's referendum, which was filed June 11, after two days record-breaking hustling by the trained forces of the Municipal League, and assert the invalidity of this action of the Mayor, his petition and the course of the Council in ordering it on the ballots for the election Thursday. The clerk, having already verified and certified the Mayor's referendum, on the light ordinance, will look to the City Attorney for advice as to what to do with the new petition.

City Attorney Hewitt said yesterday that the action of the Council in ordering this ordinance has been acted on, another must be treated as merely adding to the sufficiency of the first. "I would call this last a mere superfluity," said Hewitt, laughing. Whether it is or not the courts must determine, for wherever the clerk refuses to act on the petition, without references to its predecessor, begotten by the Municipal League, the companies will appeal for a writ of mandamus to the courts.

The attitude of the lighting companies is that the action of the Mayor in getting a referendum he wanted defeated the action of the Council in ordering it submitted on June 14 to an election called for June 30, were both illegal and that the only valid referendum on the subject is the one filed yesterday. The whole question will be whether a referendum ordinance calling an election must wait thirty days or whether it may be in effect in ten days.

"We will stay here a month," said Mr. Roosevelt. "Then I will settle down to work. I am due in San Francisco on August 5, to begin my commercial duties. Until that time, Mrs. Roosevelt and I will devote ourselves to quiet enjoyment of our holiday."

Whether it is or not the courts must determine, for wherever the clerk refuses to act on the petition, without references to its predecessor, begotten by the Municipal League, the companies will appeal for a writ of mandamus to the courts.

ROOSEVELT AND BRIDE IN CALIFORNIA HOME.

With headquarters in a bungalow on the hillside, the young couple, Theodore Roosevelt, Jr., and his bride, are domiciled for a quiet period in the honeymoon of their lives.

From beautiful Montecito they will radiate southern California on a little wedding trip, and will times the cost of furnishing the principal building in Washington, D. C., and a mere \$10,000 more than the cost of furnishing the Cook County Courthouse in Chicago.

The low bidder stipulated, however, that if marble counters in the different departments are desired instead of wood, another \$75,000 will have to be tacked on.

The next lowest bidder was A. F. Anderson & Co., representing the Diebold Safe Company. This bid was \$170,000 to furnish the building and \$35,000 extra for marble counters.

M. G. West Company, representing the Jamestown Metal Furniture Company, flattered with an offer to furnish the place for a contemptible, petty \$249,700.

The bid of the California Furniture Company was \$247,500.

Accompanying the bid of the Van Doran company was a set of self-written indorsement mentioning other jobs for furnishing public buildings with the costs as follows:

Cook County Courthouse (Chicago) \$140,000; Kings County Courthouse (Brooklyn, N. Y.) \$120,000; Shelby County Courthouse (Memphis) \$50,000; Municipal Building, Washington, D. C., \$40,000.

The disturbance came from the Art Metal Construction Company which uttered a plaintive wail, saying that the time for bidding was too short and that its local representative had been ill; hence it could present no bid.

"I move that communication be filed," said Supervisor Eldridge, "it ought to go into the waste basket where it belongs."

Supervisor Pridham then moved that each Supervisor be furnished a list of the furniture required for each county department. This seemed to touch a sore spot upon Eldridge, who snapped back that no such list should be furnished.

"There is no complete list here," complained Pridham.

"Damn you," yelled Eldridge, "you know no such list was here."

Pridham made some reply and Eldridge shouted, "Don't get gay with me."

"Don't you swear at me," retorted Pridham.

"Don't you start anything," from Eldridge.

The chairman called the two to order.

"But," said Eldridge, stoutly, "I never took anything back."

HE IS SORRY NOW.

After Punishing His Father-in-Law,
Fireman Healy Patches Up Family
Quarrel.

As the result of a lively fracas with his son-in-law, Bernard Healy, Jr., son of former Councilman Healy, Sidney O. Thomas, an oil driller, is confined to his home, No. 218 South Gates street, nursing a broken jaw and sundry minor injuries.

Healy, a pleasant-faced, mild-spoken young fellow, is employed as an engineer for Engine Company No. 4, stationed at No. 218 Aliso street. According to his story, the trouble, which occurred on Sunday, originated at his home, No. 218 South Avenue 15, over a trifling dispute with Mrs. Healy, the daughter of Thomas. Angered at a remark of Healy's, the latter's wife took her year-old daughter and went to the home of her parents. A few minutes later Thomas appeared on the scene, and Healy says used threatening and abusive language to him. The latter ordered him to leave, which he refused to do. In the mix-up which ensued, the old driller was badly used up.

Healy expressed himself as greatly regretting the affair, stating that he resented only the unwarranted interference on the part of Thomas, and that his relations have since been amicably adjusted. Mrs. Healy and her daughter, however, are remaining at the home of Thomas. She refused to give any statement regarding the matter.

"LARK ELLEN'S" WORLD-TOUR.

FAMOUS SOUTHERN CALIFORNIAN BEARS BEST WISHES.

Delightful in Personality and Entertainingly Original in Her Artistic Achievements, Her Triumphs Will Be Anticipated and Her Return Regularly Awaited.

Miss Ellen Beach Yaw's announcement that she is to make a world-tour will be received with delight by all Californians who are interested in the arts, and more especially, in the accomplishments of energetic young California people.

Miss Yaw is and always has been distinctly original. She was original in her early singing, and she was unique in her vocal gifts, for no one ever possessed a voice of such extraordinary timbre.

Having developed this remarkable faculty, Miss Yaw added one more to her list of originalities by suddenly refusing to feature her natural endowment, and went very seriously for "Art," with a capital A.

The result was that she made a genuine success in Europe, a success not based on bombast, but solidly established by reasons of real musical excellence.

She has triumphed in Italy, appeared successfully at Monte Carlo, and delighted the audiences in the French and German capitals.

Miss Yaw's biggest operatic success, in point of importance, was when she sang "Lucia" at the Metropolitan Opera-house, and received unqualified commendation from the master-critics of the country. In concert tours, Miss Yaw has also established herself as the queen of American coloratura sopranos.

It is in personality, however, that she has secured the admiration of those whose thoughts will follow her around the world.

The "Lark Ellen" grammar school, at Covina, the "Lark Ellen" nursery, the "Lark Ellen" fountain, and the "Lark Ellen" railway station are only a few of the testimonials which her own countrymen bear her.

Usually a prophet is not without honor save in the place where he votes, and there he is pinched if he dares to prophesy, but Miss Yaw disconcertingly disapproves the old rule in her own case.

Her beautifully improved ranch, her famous "Fountain of the Birds," her Barnum-like flock of pet hens, her troops of admiring school-children and all the doting little Lark Ellens who have been named after her, will doubtless thrive and increase in her absence, but the things that love her, out Covina way, here and elsewhere, are going to wait anxiously for her return.

Youngster Hurt in Accident When an Auto Crushes Foot Can Go to Pione.

Willie Baumgart's foot was shockingly torn under an automobile wheel in a peculiar accident yesterday, and it hurt awfully, but Willie's chief worry was that the foot might not heal fast enough to allow him to go swimming with his Sunday-school class at Long Beach on the Fourth of July. Willie is a 12-year-old boy, who lives at No. 54 East Sixteenth street.

He was riding a bicycle past the intersection of Fifth and Spring at about noon yesterday, when his wheel slipped and threw him with his left foot directly under the wheel of a big automobile in which E. V. Rees, No. 220 Germain building, was passing him. All the flesh was torn clear across the boy's instep.

Rees packed him in the auto and hurried the little patient to the Receiving Hospital. Dr. Carter found it a big job to patch that mangled foot, and Willie was tremendously interested, but his first question when the last stitch had been taken was: "Will I be able to go swimming on the Fourth of July?" He will.

BIDS BY CONTRACTORS.

Offers for Construction Work on New Good Roads System Are Coming In.

Bids were opened yesterday for the "Los Angeles, Inglewood and Hermosa Beach" part of the good roads system. Garney and Pitzer bid \$74,455.44. Their bid was in detail as follows: For grading and building culverts on section one, \$10,300; on section two, \$6,600. For macadamizing section one, \$1,900 per ton; section two, \$1,500 per ton. A. C. Johnson bid \$75,540.88. For grading and culverts section one, \$12,600; section two, \$5,600. Macadamizing section one, \$1,900 per ton; section two, \$1,500 per ton.

On recommendation of the Highway Commission, the Garney, Pitzer bid was accepted.

THE PUBLIC SERVICE.

(Continued From Second Page.)

His relatives declared that he had only 35 cents in his pocket when he left home, and that he could not possibly have gone much farther than to one of the nearest beaches with the money he had.

Ships and sailors were watched at every port along the coast, but no tidings of Huber came of him. The sad news waves spoke not of him.

About May 10, however, a telegram was received by the local police authorities from the Chief of Police of New Orleans, saying that Huber had surrendered to him, with the announcement that he was \$500 short in his account with the automobile people in Los Angeles. The Crescent City Chief also said that Huber would waive extradition and come back to stand trial without making any fight against it.

The manager of the automobile concern, when asked about the shortage, said it was true that Huber was a defaulter, but that his surrender was a matter of no consequence to the firm, as the concern did not intend to prosecute him. The State of California did not spend any money for railroad tickets for Huber, but he managed to find his way back.

About two weeks ago, Huber's father-in-law, Andrew Huber, an old friend, to whom he confided the fact that he was wanted, Hubbard arranged an introduction to Justice Rees. Huber entered a plea of not guilty, and he was immediately released on his own recognizance until this afternoon, when he will be given a hearing.

ORIENTAL HALL.

HEARD IN INCIDENT.

Ah Hoy, a Chinese track peddler, has never had any musical experience, but he came to with a graceful sweep yesterday morning when he heard Special Officer Ira Harrington sing out: "Abony!"

"Discretion is rather an unusual virtue among the Chinese, but Ah Hoy is said to be an exception to the rule. His pretty plucking has got him many a 'calling down' from the Ninth-street market, but he always got off by promptly offering to pay for the goods with which he was charged."

Yesterday morning, Ah Hoy took a violent fancy to a crate of sixteen boxes of raspberries. The raspberries immediately began to sing. The attempt at bribery was met with scornful silence. Two blocks further Ah Hoy tried it again, this time with a \$10 gold coin. "You ketchem!" he whistled. "Fuss time to velly much soon; this time you ketchem then; me go back me say me see judge, all lightee, yes."

But it was not to be. Ah Hoy did not stop until he was landed in the Police Court, and he was charged with violating the speed limit, was fined \$5 by Justice Chambers in the Police Court yesterday.

H. Huston Huston, arrested by Motorcycle Officers Coe and Harland for violating the speed limit, was fined \$5 by Justice Chambers in the Police Court yesterday.

Chilly After Chile.

So good were the tripes and enchiladas in a Sanborn restaurant that G. Sanchez became violently enamored with the cook and he tried to carry her off bodily. Patrolman Pooler intervened when Sanchez grabbed the woman by the arm, and yesterday morning Justice Chambers sent Lopez to the City Jail for thirty days to cool his amorous ardors.

FILM THEATER RUSH.

MANY APPLICANTS EXAMINED.

W. A. Kerr, proprietor of the Art Theater, No. 228 South Broadway, who after a fire in his place, was arrested last week on a charge of employing an unlicensed operator for his moving-picture machine, was fined \$10 yesterday morning by Justice Frederickson, but sentence was suspended.

Two other moving-picture theater owners have been arrested on the same charge, but no complaints were issued against them and their cases were subsequently not called in court, it being shown to the satisfaction of the prosecuting attorney's office that the moving-picture men have been allowed to run for two years without ever being brought to account because of their failure to obtain licenses from the City Electrician, who had never examined any of them.

Applications for licenses, however, were made last night at the City Hall, and the examination of applicants was the order of the day in one end of the City Electrician's office.

CRISS-CROSS CALL.

ODD DEFENSE SUMMONS.

Calling the arresting officer as a witness for the defense was the novelty in Police Court procedure introduced yesterday morning by F. Flanagan, before Justice Chambers on a charge of disturbing the peace. Flanagan had got into a snarl with William Matthews and "Spanish" Jack, who snatched his hand, punched him in the neck for protesting when they met him at the corner of Fifth and Gladys avenue at 2:30 o'clock Sunday morning.

Flanagan was a good argument and there was an awful din when Patrolman Plummer happened along. Matthews and Jack pleaded guilty and were fined \$10 each, but Flanagan denied his part in the disturbance.

"Any witnesses you want called?" asked the court. "Yes," spoke up the defendant quickly. "Can I have the officer testify for me? The officer could, all right, but Flanagan had to pay a \$5 fine."

Piper on Wrong Pipe.

For the next twenty-five days or so Tony Piper will be spared the humiliation of having any one snatching beer out of his hand. Tony and Hazel Wood, a can of beer in a room at No. 132 South Los Angeles street when Patrolmen Jarvis and Hackett, looking for evidence in some other case, were shocked by the language used when the woman decided that Tony was besting her with the beer.

When the woman decided that Tony was besting her with the beer, she was charged with disturbing the peace and Justice Chambers fined them \$10 each, which they will work out at the rate of \$1 a day in the City Jail.

"On General Principles."

G. H. Fisher is in the City Jail, awaiting sentence on a charge of petty larceny and "on general principles," as the arresting officer put it yesterday morning. Fisher was arrested specifically for stealing three stories from a South Main-street cigar stand. On this charge he was given a trial before Justice Chambers yesterday morning.

The condition of his clothes was such that it was necessary to burn every piece of his wearing apparel at the jail, and he was given new duds at the expense of the city. He will be sentenced today.

MARRIES, THEN BREAKS NEWS.

YOUTHFUL LOVERS ACT LIKE REAL GROWN-UPS.

Son of Chief Detective Browne Elopes to San Jacinto With Tennessee Belle, and Telephone Message Informs Him He Has a Daughter-in-Law Down There.

"Willie and Pearl are here. They've been married."

This is the message which Chief Detective L. E. Browne of the District Attorney's office received over the telephone from home, yesterday afternoon. Willie happens to be his son, and for about four minutes, according to Browne Senior, the walls of the office appeared to his dazed eyes to reel. Then Browne started home in a hurry.

Willie, whose grown-up designation is William H. Browne, is an employee of the Spencer garage at Hemet, and Mrs. Willie, who was Miss Pearl Ellis until yesterday noon, when the marriage ceremony was performed, is a Tennessee belle, whose family are old friends of the Browne family. She is 19 years old, while the bridegroom will soon be 21. The Brownes are Virginians and on the whole they are exceedingly well satisfied with the match, although the suddenness fairly took their breath away.

Day before yesterday Browne received a telephone message from his wife saying that Willie was on the line at San Jacinto and that he wanted his father to authorize the County Clerk who was also at the San Jacinto end of the phone, to issue a marriage license. Browne Senior, thought that it was all a joke and directed the lad to forget it.

But the young man was not to be daunted by parental opposition, and he soon induced the Clerk to issue a license without the sanction of the father. Then the youthful pair hastened to the residence of the Rev. Charles Vail, pastor of the First Christian Church of Hemet, where the ceremony was performed. Then they started for this city to visit papa and mamma.

When Browne Senior left his office yesterday, on the way home, he was undecided whether to give the young benedict a real, old-fashioned paternal lecture or to present him with a wedding present. At the foot of the elevator shaft he met a member of the Superior bench, to whom he told his story. "Give them a check," was the advice which he received, and he hastened to put the counsel into effect. With a slip of paper representing a goodly sum of money in his pocket, he hastened home, went through the bless-you-my-children ceremony, and told them to scot to the beach until they were broke. They will scot this morning.

Mrs. Willie has been a great favorite with the Browne family for a long time and last summer she passed some time with Mr. and Mrs. Browne Senior at the beach. That a serious attachment existed between Willie and the daughter, the family did not realize, however, until the young folks took matters into their own hands and got married.

After their honeymoon, the young couple will live in Hemet, where the bride's father is a prominent business man.

Mrs. Florence McQuillan Rogers, who was arrested here last Friday at a rooming-house on the corner of Forty-fifth street and Central avenue, left yesterday in custody of an officer for Joliet, Ill., where she is wanted on a charge of conspiracy to defraud and for the theft of \$10,000 from her husband, who is said to be a wealthy cattleman. The prisoner was accompanied by her little son, Willie, a five-year-old boy.

Sample petticoats

Savings average nearly half

Our seemingly unlimited outlet for silk petticoats is well known among the big manufacturers. So when any of them are anxious for a quick clean-up of sample lines and the short lots left at the end of each season, they offer us a heavy discount on condition that we take the whole collection. That is how these price-concessions are made possible:

- \$5.00 Petticoats\$3.75
- \$6.50 Petticoats\$4.50
- \$7.50 Petticoats\$5.00
- \$8.50 Petticoats\$5.50
- \$10.00 Petticoats ...\$6.50
- \$12 and \$13 Petticoats\$7.50
- \$15 and \$16.50 Petticoats\$9.00
- \$20 Petticoats\$10
- \$25 Petticoats.....\$16.50

Included Are:

—Pompadour silks, dresdens, roman stripes, Scotch plaids, taffetas in white, black, changeables and solid colors, plain messalines, with Jersey tops, pin-striped taffetas, and every other kind

now in fashion's favor. Plenty of extra sizes in colors as well as black—something very unusual.

(Main Floor, Rear)

\$6.00 to \$12.00
Sofa pillows . . . \$3.75

The Oriental Department, now on the 2nd floor, is to be consolidated with the Art Department on the 3rd floor, taking the space now occupied by the Drapery Stock. It will mean crowded quarters—stocks must be condensed. And this is how we are going to do the condensing:—

Hand-embroidered sofa pillows in floral and conventional designs, filled with floss and finished with cord and ribbon ruffles, \$3.75 each; were \$6 to \$12.

Four-inch cut glass nappies, with and without handles—several designs all deeply cut—reduced to 90c each.

Five-inch cut glass nappies, deeply cut in golf and chrysanthemum designs—with or without handles—reduced to \$1.25 ea.

Heavy reductions on all single articles and short lots throughout the department.

(Third Department)

\$1.00 and \$1.25
Drapery silks . . . 75c

Bright new stock in the choicest colorings. We wish to impress that fact upon your mind, for fear the heavy price-concessions might lead you to think they must be faulty in some respect.

32-inch solid color silks of the heavy Shikii and Kiola order, in about twenty rich colorings, 75c a yard; regularly 85c, \$1 and \$1.25.

32-inch plain and figured drapery silks of the 65c and 75c grades at 50c a yard. A dozen or more desirable colorings.

(Third Floor)

medley of popular airs, the "Wain Song," and an old-fashioned stumber song.
 Mme. Kristoff and her clever trio open in an Italian street song, giving the grand trio from "Faust," and a rendition of "For All Eternity."
 Mile. Beatrice introduces her "Love and Temptation" dances, and dainty lay Redelle has a trio of new offerings, given in her own style.
 The Kammermeyer Orchestra presents the usual afternoon and evening rehearsal numbers.
 Rehearsals were begun at the Burbank yesterday under the direction of the author, of Edgar Selwyn's new play, "The Country Boy," which will follow "Pierre of the Plains," his first success.

tees as patrons and patronesses, and judging from the interest shown, the affair will be a successful one.

David Kessler, with his company, will be seen at the Auditorium tonight in a Tiddish drama of note. Mr. Kessler is one of the foremost players of his racial dramas in this country.

CHRISTIAN WORKERS CONFERENCE.
 The Christian Workers' Conference resumed its sessions yesterday at the Bible Institute, with good audiences. Rev. A. B. Prichard gave an exposition of the little-known book of Jude, and Rev. H. Russell Graves preached on "The Futility of Preaching." In the evening, Dr. McAfee delivered an address on "The Evangelistic Church." This is home mission day, and among the speakers will be Rev. R. A. [unclear] and [unclear].

INDIAN COPIES WHITE MAN'S WAY.

READS ABOUT EASY DIVORCES AND FIRES WIFE.

Keeps House With Second Spouse. "Divorces" Her and Takes on No. 3 Until His Dream of Happiness is Broken Into by No. 2 Informing the Authorities—Arrest Follows.

Because the Federal law does not provide for easy divorces, Calverio Quattis is now serving a nine months' term in the San Bernardino jail. The defendant, who is a graduate of an Indian school, read about the comparatively easy manner in which white men and women secured divorces at Reno, Nev.

He went in search of his wife, who lives near Banning, and told her that he divorced her. She only granted and returned to him, thinking that he had fulfilled all the necessary legal preliminaries, thereupon sought out a younger woman and proceeded to keep house with her.

Even then the Federal officials might not have interfered, through lack of knowledge of the Indian's peculiar method of getting a divorce. But the buck found his second spouse too ignorant to suit his school-bred tastes and he also "divorced" her.

She made no demur, but kept a careful watch upon her former lord and master. When he took a third Indian girl to his cabin, she informed the authorities. Quattis was arrested at Banning and word was sent to United States Marshal Townsworth. The prisoner, being a government ward, could only be punished under the laws of the United States.

Deputy United States Marshal Durin was sent after the prisoner. He was curious to learn why the Indian had taken so many chances merely to gratify a whim.

"I read of the Reno divorce," said Quattis ruefully. "I thought it was all right to divorce my wife if she did not suit and get another. The second wife was no good, so I tell her we were divorced. My third was a nice girl, but they put me in jail. I have done nothing wrong."

When Quattis was taken into the United States District Court yesterday he was asked to plead. He admitted that he had done all that was charged against him and thereupon was sentenced for adultery.

LOCAL SWITCHMEN SCRAP.

After one of the fiercest railroad wars ever engineered on this Coast, it was finally decided yesterday that the Salt Lake is a whole lot better railroad than the Southern Pacific in every way.

The question of superiority arose between Henry C. Patterson, a Southern Pacific switchman, and Andy Reynolds, who officiates in the same capacity for the Salt Lake. Words became too mild to express the loyalty of the men for their respective employers, and they went to work with their fists near the Salt Lake yard office. The issue was not considered settled until the Southern Pacific champion "had been smacked on the eye with a bottle."

Patterson, loftily ignoring all questions as to who Billy Patterson, bit Reynolds on the cheek. Reynolds went back to pulling switchstand levers for the winning road.

ELECTRIC EMPLOYEES DISCUSS RATE AT BANQUET.

Declare Ordinance is Draconic and Will Impair Earning Power of Securities, Imperil the Sale of Bonds, Prevent Extension Work and Injure Business.

The proposed electric light ordinance was discussed from the ground up, at the banquet of the Southern California Edison Company, given to 300 employees, at Levy's last night.

The leading speaker was R. H. Ballard, who stated that the electric business of Los Angeles is between the devil and the blue sea.

"On one side," he said, "is a rate that makes it impossible to earn interest on our securities, and on the other are regulations of the bond houses which require them to certify to a reasonable earning power before they can dispose of our securities to the investors."

"We cannot make people buy bonds that will not pay a good return on the money as other forms of securities, and we cannot go ahead with extensions unless we sell bonds to pay for the extensions."

"The Board of Public Utilities declined to give us a chance to appear and present our proof of valuations and demonstrate the cost of making and delivering electricity. The Council took up their report and rushed it through with unceremonious haste, and the result is this 7-cent rate ordinance—a cut of 25 per cent. and a rate for the city of Los Angeles which is 40 per cent. below the average rate in city-seven representative American cities."

"It isn't only in the downtown districts nor in the settled residential districts, where electric construction has been going on, but out on the new subdivisions, where tracts are being platted and streets graded in advance of the carpenter and the mason or the painter, who follow with absolute certainty in the footsteps of the men who plant poles, string wires and lay gas mains."

"Most of you were with us during 1907. Money was pretty close that year and there was not much extension work. It was not until the financial conditions eased up and the extensions were continued that the building trades resumed activity and the city began to grow again. I have friends among the real estate men and the builders, and you know that they will confirm this statement."

"In 1907 we could sell some securities and do some extension work. That was because the condition was general and not local, our company was on a good business basis and the bond people knew that just as soon as good times came back we would be in a first-class position to go on earning a reasonable and proper return on the money that they have entrusted us with."

"Now the condition that confronts us is strictly local; it is not a general condition but an arbitrary condition forced upon us by a drastic piece of legislation."

"The members of the Board of Public Utilities oppose it, and they did not have time to go into the subject, and of course the council did not. I do not think the members of either of these boards realize the extent of the injury that would result to our business, the building trades, and to the city in general by this cut. If they knew the situation as you know it and I know it, they would not have passed the ordinance."

Other toasts responded to were, "A Boulevarde Corporation," S. M. Kennedy; "One Good Turn Deserves Another," W. E. Boden; "A Happy Family," Sammy Darnell; "A Square Deal," J. H. Pieper; "Squad Ready," C. S. Walton; "Publican and Pharisee," Peter Ducker; "How I am Going to Vote, and Why," W. A. Raymaker; "From the Ground Up," W. L. Frost; "Liberty," H. D. Thaxter; "Between the Devil and the Deep, Deep Sea," R. H. Ballard; "Let Us Forget," Frank Ballard; "Play Ball," Charley Sherratt; "The First Law of Nature," E. H. Mulligan.

The chairman of the banquet was George Decker. B. F. Pearson filled the post of toastmaster in a felicitous manner.

HORSE FALLS ON HIM.

Alexander Rey of No. 1289 Pennsylvania avenue, 67 years of age, almost tore all the scalp off his head yesterday by accidentally pulling a horse down on top of him so that he was jammed between the animal and an iron gate at Agricultural Park. Rey, who is said to be worth \$40,000, drives a team for the city chain gang. He was at work when he became entangled with the lines through one of the horses stepping on his foot, and the next instant he was jammed against the iron column. He sustained two four-inch cuts across the top of his head, each peeling the scalp back about two inches. Rey was taken to the Receiving Hospital.

No Bread In Los Angeles Like
Bradford's Bread

There's no other bread so clean—no other bread so pure—no other bread so good—as Bradford's Bread—because no other bakery in Los Angeles has the facilities—and the equipment—or spends the money necessary to produce the incomparable qualities of Bradford's Bread.

These are big, vital facts—which thousands of Los Angeles families have proven to their own profit and enjoyment.

You can prove them yourself by visiting the Bradford Bakery and by eating the Bradford Bread. Order from your grocer.

We urge you to visit our bakery, that there may not be the slightest doubt in your mind that we do take greater precautions for cleanliness—and use finer materials—than any other bakery in Los Angeles.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

PASADENA.
SECOND CHANCE
TO BE GIVEN.ALL VOTE AGAIN FOR BONDS
FOR HIGH SCHOOLS.

Board of Education is to Meet Tomorrow to Take the Formal Steps. Officials Oppose Compromise With Edison Company, But Agreement is Possible.

Of the Times, No. 21, Raymond Ave.

PASADENA, June 27.—The Board of Education will meet Wednesday morning at 8:30 o'clock for the purpose of putting a resolution calling for another bond election to vote bonds for the purpose of buying a site and erecting a new high school building. The members met informally last night for the first time since the defeat of the last election two months ago. The amount will probably be the same as then. There is a tendency to make much change in the street layout which was voted on at the last election, was the choice of three members, while the other two favored the East Colorado-street site.

Acting on the suggestion of many people who voted adversely last time, the board may make some sort of a proposition to the people giving them a second chance to choose a site. Those who favored Villa Street believe that it is a better site than the one which was voted on at the last election, though not a two-thirds majority. A name one should be submitted.

The Board of Education has been advised the active support of the board of Trade, Merchants' Association, Real Estate Board and other organizations and it is believed the bonds will carry.

The defeat two months ago served as an eye-opener to some people who believed as a matter of course that the well regulated city could ever afford to vote down school bonds, especially when a new high school building was badly as Pasadena. The most enthusiastic workers in favor of the bonds were the high school pupils, themselves and their parents and friends, who fully appreciate the urgent necessity for more school buildings and larger quarters for many departments. One member of the board last night.

"However, the defeat of the bonds has largely due to the fact that many real estate boosters argued that the building should be located on East Colorado street where it would be used as one of the show places of the city. The voters who voted for the bonds were not certain men who were called to any conclusion. Other objectors were those who stated their class should have a representative on the board."

"Since the defeat of the bonds a general campaign of awakening has been going on, especially among the young people and those interested in higher education, to the end that at the next election the bonds will be supported by a large number of earnest workers who took no active part the last time," said a prominent business man, after last night's meeting.

The principal topic of conversation yesterday was the electric light controversy. At the meeting Saturday night Mayor Earley stated that he would be willing to make a contract on behalf of the city to buy juice from the Edison company. A large number of prominent business men are in sympathy with the Mayor and believe he is willing to take the wise course and put an end to the present competitive struggle, which, it is generally felt, is not benefiting the city.

Many of the more radical of the city officials, especially those who have taken a leading part in the present move to cut the rates in order to meet the Edison company on its own ground, are pleased with Mayor Earley's willingness to effect a compromise and are still clamoring for more to cut the rates in order to meet the Edison company on its own ground.

City Attorney Wood and Manager Komer stated yesterday that the Edison people state that if the city will agree to take juice wholesale they can make more money than they can by retailing it themselves.

Mayor Earley said last night that he has not had a conference with the Edison officials yet, but indicated that he would probably have one soon. It is more than likely it will be held after the morning meeting of the City Council.

City Attorney Wood and Manager Komer stated yesterday that the Edison people state that if the city will agree to take juice wholesale they can make more money than they can by retailing it themselves.

They state the city has secured over the new three-year subscribers and that consumers are coming in so rapidly they are sure of eminent success with the city's steam plant.

These well posted in the affairs of the city and the Edison company, state the whole matter has resolved itself into a question of the price at which the Edison company will furnish the juice and on what terms the city can use the distributing system of the company.

The charter prohibits a contract for longer than one year. While the city has extensions to be made before the principal plant is undertaken to supply every consumer. Meters cost the Edison company, according to the statement of the Edison company, is estimated that the necessary to supply every consumer of the city would cost equally as much as the city could suppress it would be up against the Edison company.

SUBSCRIPTIONS RAISED.

Announcement of Sum Received and

Promised Made at Whittier.

Meeting at Whittier.

WHITTIER, June 27.—At the session of the California Friends' yearly meeting Saturday, devoted to educational interests, \$2000 in cash and scholarship subscriptions was quickly raised for Whittier College. An announcement was made that the alumni of the college have contracted for \$1000 for immediate improvements to the Hadley athletic field. That the college year has been one of the best was stated in the annual report of the institution. President Thomas Kevlin announced that a Biblical course will be offered to students with the opening of the next year. Another important change announced is that hereafter the first year of preparatory work will be abolished and students will be admitted to third year work. This innovation is in accordance with an educational trend common elsewhere. It is hoped that later on preparatory work may be dropped entirely in order that the institution may devote its energies to the college grade.

The Experiment Station of the University Department of Agriculture, maintained here by R. S. Woglum, was closed last week. Mr. Woglum has departed for Washington to make a tour of the world in furtherance of his investigations on citrus pests. He will especially endeavor to find the native habitat of the Florida pest known as the white fly. He hopes to discover this and bring it to its natural enemy, or "control."

CARS COLLIDE, NOBODY HURT.

First Accident Occurs Within the Soldiers' Home Grounds—Three Recent Deaths.

SOLDIERS' HOME, June 27.—Two Los Angeles Pacific cars were damaged in a collision which took place in the home grounds at 12:45 p.m. today, but not one of the score or more of passengers aboard received the slightest scratch. In view of the fact that the impact was so great as to smash the fronts of each car back to the entrance doors, escape from injuries seems remarkable. Westgate car No. 236, on its way to Santa Monica, got too close to the switch, by which Soldiers' Home car No. 96 is compelled to reach its Westgate car, which was broken and the track at Sunset boulevard. The Soldiers' Home car, though going slowly, crashed into the corner of the Westgate car, which was broken and the track at Sunset boulevard. The Soldiers' Home car, though going slowly, crashed into the corner of the Westgate car, which was broken and the track at Sunset boulevard.

The passengers who were sent sprawling within the cars, on recovering from their astonishment and alarm, found it impossible to realize that everyone had escaped.

The crew of the Home car is notably composed of the soldiers, and it was the first accident that has taken place within the Home.

RECENT DEATHS.

Alexander Thompson, formerly of the Thirtieth Independent Battery, Infantry, Light Artillery, a native of Pennsylvania, admitted to Los Angeles in 1909, died June 25, aged 38.

John McKay, formerly of Company F, First United States Infantry (Mexican), died June 25, aged 38.

William E. Hulet, formerly of Company B, First United States Infantry (Mexican), died June 25, aged 38.

Tuesday Specials of Vital Importance in the Basement Store

FROM SAN FRANCISCO.

SECRETARY DICKINSON STARTS TODAY ON TRIP AROUND WORLD.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, June 27.—Secretary of War James M. Dickinson, with Mrs. Dickinson, arrived in San Francisco at 10 o'clock tonight and will leave tomorrow on the steamer Siberia for a trip around the world. They will be accompanied by Brig.-Gen. Clarence Edwards of the Bureau of Insular Affairs.

Secretary Dickinson will supervise the preliminary plans for the new government fortifications in Honolulu, and will go from there to Manila, where he will attend to a number of important matters of island administration. The return to the United States will be across Russia, via the Trans-Siberian Railway.

The Secretary will visit the new transport dock at Fort Mason, going from the dock to Angel Island and Alcatraz, and later to the Presidio.

MAYOR TO RESCUE IN TACOMA'S CARFARE FIGHT; MANY ARRESTS.

[BY DIRECT WIRE TO THE TIMES.]

TACOMA, June 27.—[Exclusive Dispatch.] From early morning until late tonight was waged between the city of Tacoma and the Tacoma Railway and Power Company a fight over 5-cent fares to the city. The company had been collecting 10 cents, notwithstanding a court decision. There were fights on the cars all day, and a number of passengers were beaten up. The city agreed to no one but the 5-cent fare today. The city agreed to no one but the 5-cent fare today. The city agreed to no one but the 5-cent fare today.

CONFESSES EXTORTION CHARGE.

Watsonville Prisoner Shields Woman and Asks for Sentence at Hearing. Was Formerly Wealthy.

[BY DIRECT WIRE TO THE TIMES.]

SANTA CRUZ, June 27.—[Exclusive Dispatch.] H. E. Farnsworth, arrested in Watsonville and charged with extortion, for having forced John Hodges of this city, at a revolver's point, to sign a note for \$500, having as an accomplice Miss May Cavanaugh, who he says is his daughter, welcomed a State's prison sentence at a preliminary hearing today. He admitted all, and that he was driven to crime as a last resort, as he was unable to work and was down and out. He was once well off, but lost his money through speculation. As a contractor he had charge of the structural work of the big Spreckels sugar factory at Spreckels.

In confessing, he endeavored to shield Miss Cavanaugh, who awaits her hearing. He will be bound over to the Superior Court and will receive quick sentence. Farnsworth is a man of middle age and does not look to be a man who would attempt such a crime. He was arrested and charged with the crime when a collector attempted to collect the note from Hodges, who met him with a revolver and drove him off in a hurry. Being arrested for assault he then took revenge.

AGREE TO CLOSE UP.

Carlsbad, N. M., Saloon-keepers Promise to Go Out of Business on Agreed Conditions.

[BY DIRECT WIRE TO THE TIMES.]

EL PASO, June 27.—[Exclusive Dispatch.] Carlsbad, N. M., claims to be the champion of the world when it comes to arbitrating matters of civic importance. The saloonkeepers of Carlsbad have gotten together and voluntarily agreed to close their saloons for all time if they were permitted to run until June 15, 1911. Anti-saloon agitators wished the saloons closed within six months while the saloon interests wanted twenty months. By arbitration the compromise was effected and without the holding of any local option election or by any other means, the saloonkeepers have agreed to close their doors on the date agreed upon.

DETERMINED.

CLASS PROUD OF MEMORIAL.

WILL ERECT THE TABLET NEAR THE UNIVERSITY.

Wisconsin Regents Refused Offering of Graduates Because They Considered It Charged Them With Attempt to Restrict Free Speech and Research Work in the School.

[BY DIRECT WIRE TO THE TIMES.]

MADISON (Wis.), June 27.—[Exclusive Dispatch.] The free speech memorial of the graduating class of the University of Wisconsin, which the Board of Regents last week refused to permit to be attached to the University Hall or erected on the university grounds, will be placed on a private site on the street near the university campus.

This was decided upon by the Memorial Committee of the class tonight, after the Executive Committee of the Board of Regents ignored the request that its refusal be reconsidered. The class will raise enough money, by subscription among its members, to buy a piece of ground, four feet square, on some private lot near the university and erect the rejected tablet on it.

Hugo H. Hering of Rockford, Ill., chairman of the Memorial Committee, will have charge of the work of raising the necessary funds. President Van Hise says he was not consulted by the class regarding the memorial until it had asked the Regents for permission to place it on the university grounds. The Regents considered that it inferentially charged them with attempting to restrict free speech and research work in the university.

RIOTS FOLLOW CRISIS.

Violent Demonstrations Sparked Withdrawal of National Guards from San Francisco.

tations over the revision of the concordat. The Republicans and Radicals are organizing throughout Spain counter demonstrations against the Catholic religion.

ONE KILLED IN RIOT.

[ASSOCIATED PRESS DAY REPORT.] BILBAO (Spain) June 27.—Republicans who were making an anti-Catholic demonstration entered the Carlist Club rooms today and rioting followed. The police intervened but before the fight was stopped one man had been killed and many others injured.

POLICE SLAY RIOTER.

[ASSOCIATED PRESS DAY REPORT.] SAN SEBASTIAN (Spain) June 27.—A religious riot occurred before the quarters of the Basque Club today and shots were exchanged. Municipal guards charged the disturbers, killing one man and wounding several others.

WILL BUILD TROLLEY LINE.

Articles of Incorporation of Hanford and Summit Lake Railway Company Are Filed.

HANFORD, June 26.—Articles of incorporation of the Hanford and Summit Lake Railway Company were filed Friday. The capitalization is \$500,000. The principal place of business will be Hanford. The line will extend from here, through Grangeville and Hardwick into the Summit Lake region, and will return through Lemore and Armona.

The road, including the loop and an extension to Laton, will be fifteen miles long. Electricity will be the motive power used. Charles King Hardwick, J. O. Hickman and George C. Aydelott of Hanford; Ralph W. Heins of Santa Cruz and Clifford McClellan of San Francisco are the directors, and have subscribed \$15,000 of the stock.

CHURCH WILL HEAR CASE.

Dr. Martin of Fresno Will Be Tried in the Superior Court—Pickpocket Sentenced.

[ASSOCIATED PRESS DAY REPORT.] FRESNO, June 27.—The case of Dr. J. L. Martin, held to answer in the local police court last week on a charge of having criminally neglected his wife, after the latter took poison with suicidal intent and from the effects of which she subsequently died, will be heard in the Superior Court.

the name of Harry Myers, but this afternoon just before he was sentenced he divulged his true name and admitted that he had been arrested at least once in the east. He stated that he lived for eight months in San Francisco prior to coming to Fresno. The local peace officers are certain Barnett is a New York professional pickpocket, and the prisoner admits that it was in the eastern metropolis he first "went astray."

A Spanking Chair.

Although the whipping post is a thing of the past, the principle in revised and modern form and judiciously applied is expected to work wonders in enforcing good behavior upon some of the worst offenders in the Juvenile Court, says the Dispatch.

A "speaking chair" will be placed in the basement of the Juvenile Court, where all those who are sentenced to "speaking" will be taken to "speak" their minds.

The Juvenile Court will have a long list of cases to try today, and it is expected that the court will be kept busy for some time.

Special grand jury will have a session today, and it is expected that the jury will return a verdict in the case of the man who was shot in the back.
